

Balance Advisory Capability Statement

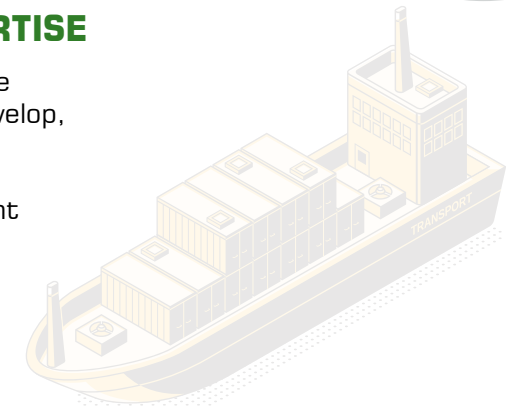

High-value solutions. Profitable connections. Pragmatic approach
Securing and managing key enabling infrastructure for your projects and operations

INFRASTRUCTURE SUPPLY CHAIN EXPERTISE

We deliver unique leadership and guidance across the whole infrastructure lifecycle for those who own, develop, operate, regulate or manage assets through:

- Technical advisory services
- Logistical and operational strategic management
- Regulatory policy advice, liaison and analysis
- Comprehensive feasibility analysis

EXPERT REPORTS AND DUE DILLIGENCE

We make negotiation, risk mitigation and opportunity evaluation effortless by:

- Providing expert witness advice and services
- Assisting in dispute resolution processes
- Strategic negotiation
- Technical, operational, financial and commercial risk profiling
- Complete independence and impartiality

COMMERCIAL EXPERTISE

We have the know-how to ensure commercial objectives align with technical and operational aspects by:

- Working with you to realise project goals
- Drawing upon experience and networks
- Sharing our unrivalled knowledge base across major infrastructure projects
- Preparing and negotiating user agreements
- Facilitating secondary market trading

Balance Advisory are experts at balancing your competing priorities through the provision of sophisticated offsite infrastructure advice.
